

Stockton Feb 22 - 1892

Dear Alice:

Your letter of the 19th is just received, am sorry to hear you are feeling so badly. In regard to your staying or leaving I shall let you use your own judgment. You can stay and ask for a short leave of absence as often as you need it - if you like. If you think your stomach is bad my opinion is that Dr Hall's treatment would do you more good than anything. At any rate your bowels must be kept open, and if you do not do that, get some tincture of rhubarb, or syrup of figs and take occasionally. I am going down town with Frank this morning with Frank

to get him a suit of clothes
and as I want to get this off
on the noon train will not
stop to write much. Every
thing is going on about as
usual here. They are working
on the house. I hope this I
will find you feeling better
than when you wrote last-

From your mother
E. M. Watson

If not delivered within 10 days, to be returned to

Miss Alice M Watson.
