

think about - 2 years
of Mr Gregory looks
to me to be about
ten years older than
your father, while
you are only ten months
older. I was surprised
to see him
looking so old.
He is not old in
his actions, only
his looks. He
brought a gun and
rifle in boots all
the way from

go hunting. I send

received and I was quite relieved
to hear that you were not down
sick. I hope you will improve
and get to feel more like your
self. Mr McGregory came Wednes-
day noon, and I tell you there
has been some talking done in
this house since then. They have

together about things of no interest
to any one but themselves: paying
but little attention to anyone else
in the room, and not giving
her a chance to get in a word
edge ways. I don't know how
long he is going to stay. She
wants your father to take a trip
to Tuol co with him, and I think
if the weather is pleasant they will
get started some time this week.

She has a son 23 years old studying
in Germany; he is very much
interested in science, electricity
and chemistry principally. She went
to a college at Hamilton N.Y. where
a brother of this Mr Mc Gregory is a
professor of chemistry. The prof.
took a notion that she wanted to
go to Germany again himself and
study a little more, so he persuaded
his brother to let him take the
boy with him. They went and the
boy is still there, has been there 9
