

Stockton Sept-18-1892

Dear Alice:-

Since writing last I have thought of another plan for you. How would it do, if you decide you cannot stay there, to ask for leave of absence for the term with the privilege of going back and trying the examinations. Then when you get home if you were able to study you could have private teachers for some of your studies if not all. There is a little house on California St- where there is a sign out saying French, German, and Spanish are taught there. It would not cost much if any more than it does there. If it is the climate that affects you so, it would be quite an object to get out of it that length of time if you could, and still keep along

with your class. Of course I am
only suggesting this; you can
do just as you like about it.
Ben got home last night. The
coming week is fair week, but I
don't expect to see much of it.

In haste

From your mother
E. M. Watrous

If not delivered within 10 days, to be returned to
