

Stockton Dec 11-1891

Dear Alice:-

I am one day late in writing to you this week, thought I would wait till C. G. got back. We are having a spell of quite cold weather, and although I have not been out for nine days past I have managed in some way to take cold and have been quite busy for a day or two in taking care of my nose. I suppose you have heard of every thing there is going on here so there is but little for me to write. I dont know how I will fix your dress. My Delinca or has come and all the basques in it this month are short, and many of the sleeves are like your black, plain coat-sleeves with a puff at the top. I am glad to hear your throat is better, and what other ailments you may have I hope you

will tell Dr Ward and let him do what
he can for you. I see by the paper that
your vacation commences the 15th so I
suppose we may expect you home about
that time. Emma g. went to Mrs Tollers
and says she got my letter although
the ad^o was not right, there being no
such on the street; but the carrier knew
where she lived and took it to her.

Frank is going down town so I will stop
writing and let him take this, and
see if it cannot go down so you will
get it at the usual time. Emma g.
has just come over with Major, he
is growing nicely. I may go to town
this afternoon if the wind don't blow
too hard.

From your mother
C. M. Watrous.

If not delivered within 10 days, to be returned to

Miss Alice M. Watson.
East-Berkeley
Cal.
