

Centerville August 14th 1870

Dear Wife

I am still
in this place, dont know
how long I shall stay
here. am glad to hear
that you have got
over your scare about
the Small Pox, my
vaccination is working
very well. so the Doctor
here told me, it has not
made me very sick
yet I want you to write
me every few days so
that I may know how
you are getting along
you can send your
letters by mail

B. Watson
