

San Francisco Feb 28th 1879.

I found Ellen very low, from what I have
already seen I dont think she will stand
it very long. Mrs Merrill is with her now. She
says she is better today than she was yesterday.
Dr Murphy is attending her, he says she
will get well, but I say this if she does
it will be a miracle. Frank and his
Wife were here when I came but have
gone home now his wife is not feeling very
well, I dont know when I will be home, will
come as soon as I can, you keep the children
in night, write to me as soon as you
get this so that I may know how things
are going, see that Fred tends to the
horse
